

This image shows a blank sheet of graph paper. The grid is composed of 20 vertical columns and 40 horizontal rows, creating a total of 800 small rectangular cells. The lines are thin and black, set against a white background.

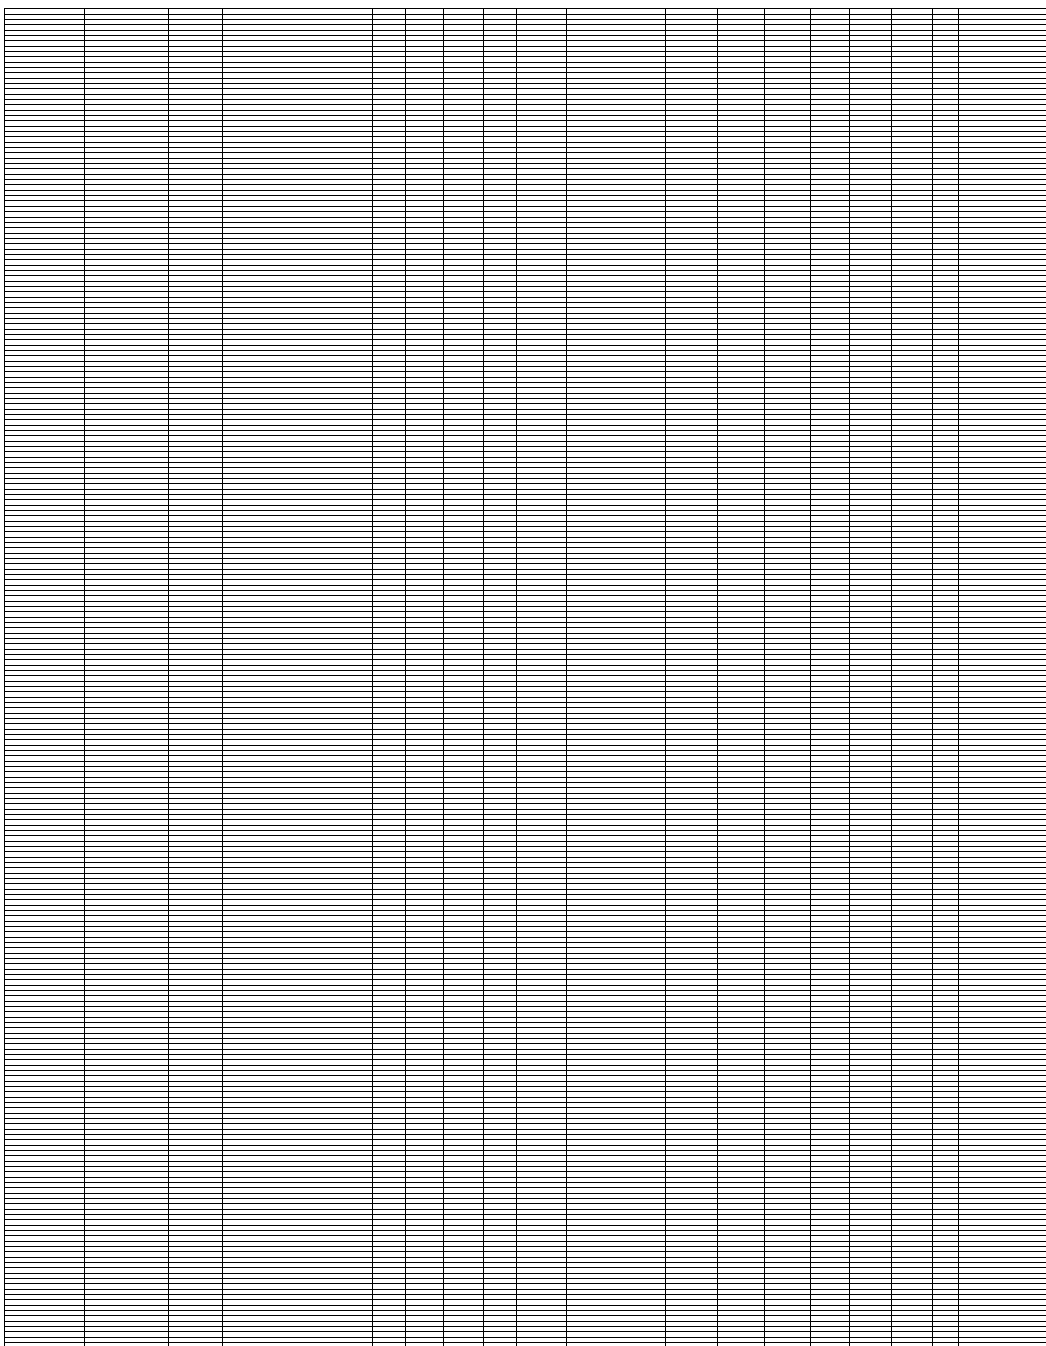

A large grid of graph paper, consisting of 24 columns and 30 rows of squares. The grid is centered on the page and is completely empty of any content.

A large grid of graph paper with 18 columns and 25 rows. The grid is composed of thin black lines forming a series of small squares. The grid is centered on the page.

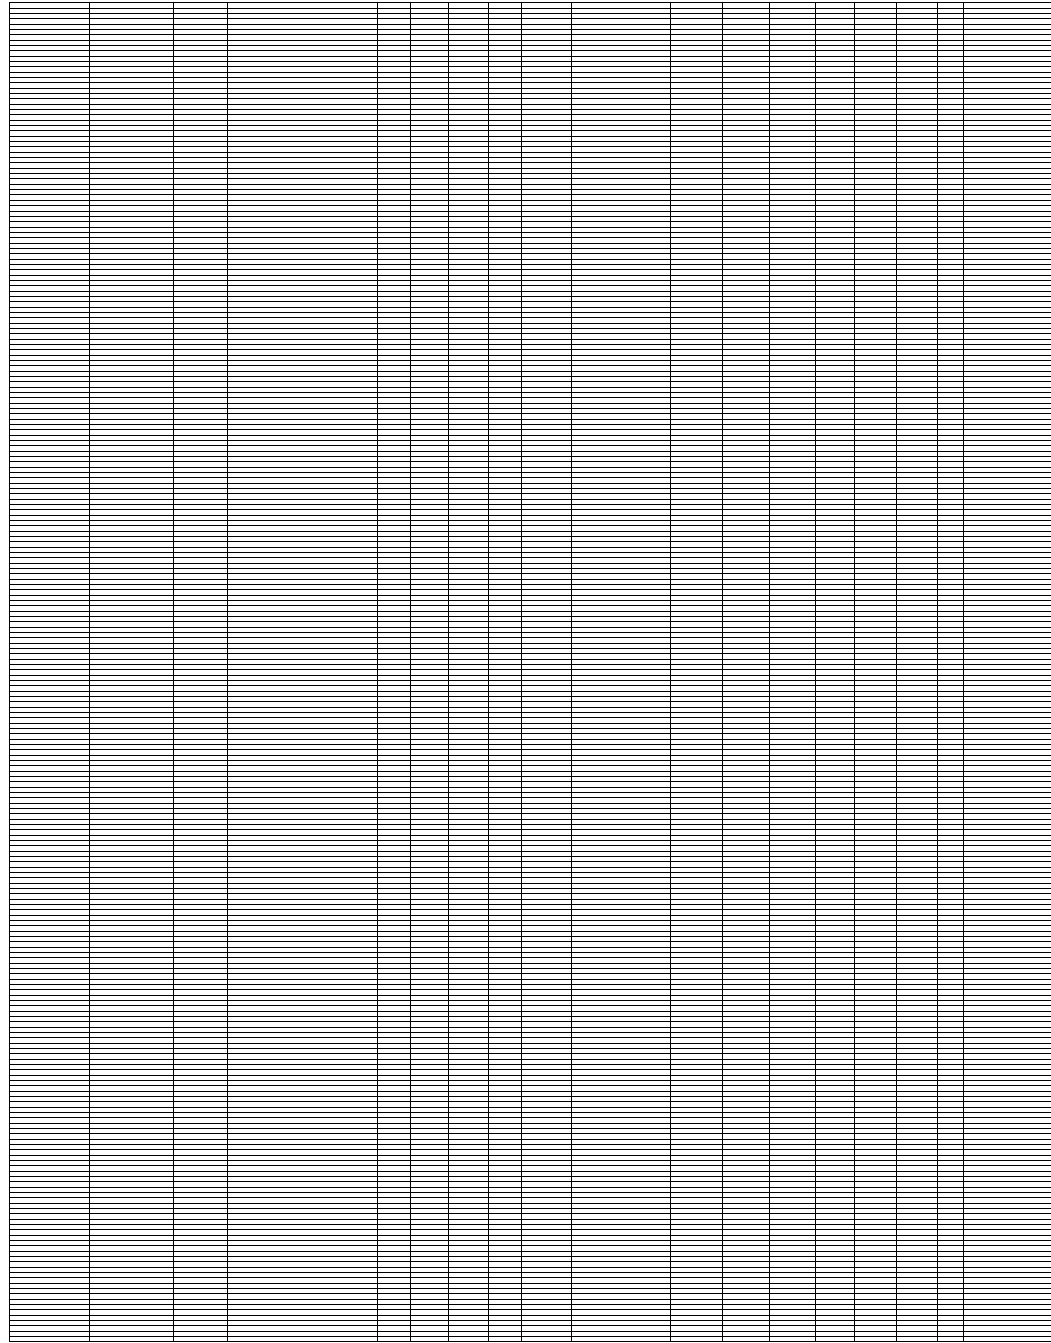

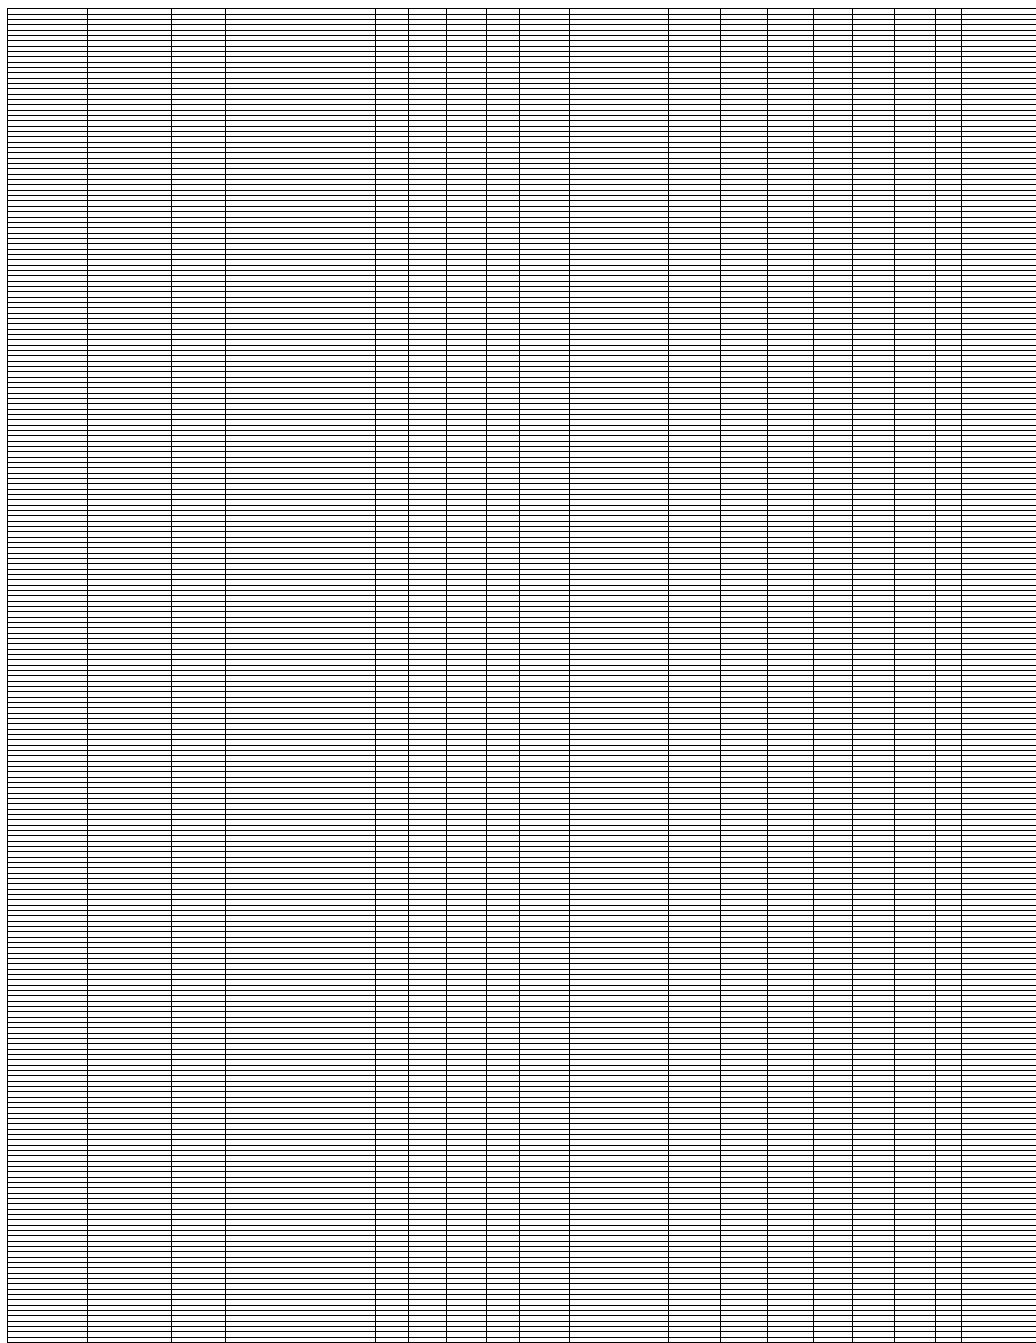

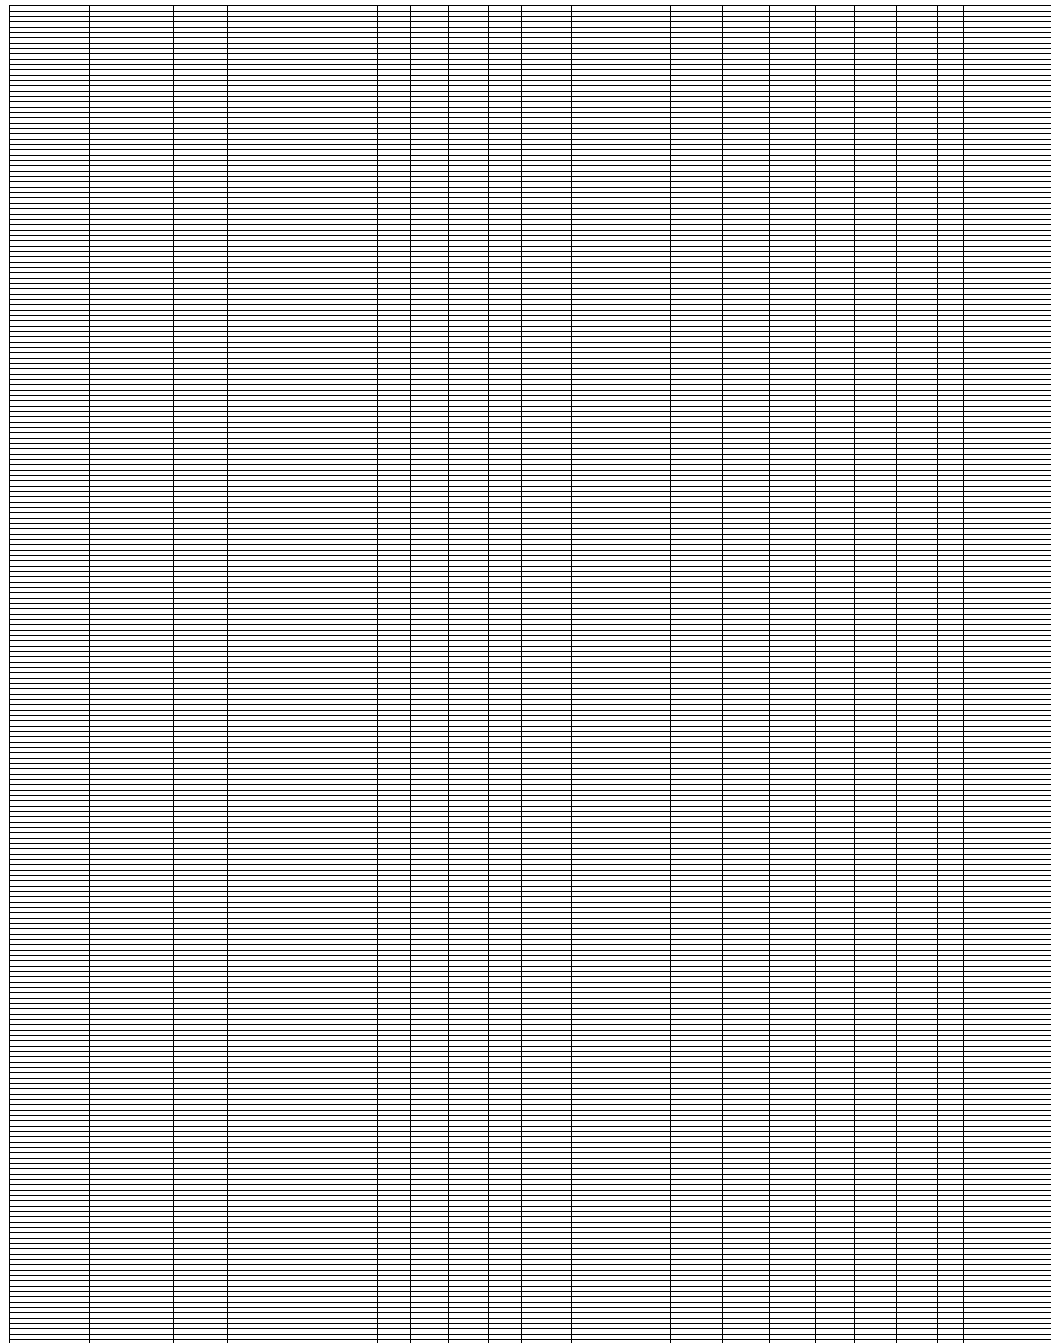

A large grid of graph paper with 20 columns and 30 rows. The grid is composed of thin black lines forming a uniform pattern of small squares. The grid is centered on the page and occupies most of the horizontal and vertical space.

The image displays a large, empty grid table with 30 columns and 50 rows. The grid is composed of thin, light gray lines forming a uniform pattern of small rectangular cells. The table is centered on a white background and contains no data or text.

A large empty grid table with 20 columns and 30 rows. The grid is composed of thin black lines forming a uniform pattern of small squares. There is no text or data within the grid cells.

The image displays a large, empty grid of graph paper. The grid is composed of 20 columns and 40 rows of small, uniform squares. The lines forming the grid are thin and black, set against a white background. The grid is centered on the page and occupies most of the horizontal and vertical space.
